

Summer Classes That Make A Splash

From An Eco Kids Club To A Bookworms Story Hour,
A Preview Of This Summer's Coolest Classes For Kids

New York Family | April 2011

APPLE SEEDS

Little book lovers are invited to join apple seeds this summer for their bookworms program! Children ages 2.5-4 years will share observations and participate in activities and projects that bring each story to life. They'll explore faraway places, make new friends, learn and most importantly share quality time with parents and caregivers. (appleseedsnyc.com)
